## Blessings of peace and comfort as we begin the Lenten Season!

### Exciting Developments at Our Lady

There are a number of exciting developments at Our Lady...the anticipation of our beautiful wildflower season, our partnership with the Williamson County Master Gardeners, and a brand new road encircling the cemetery's hilltop.

As always, we thank you for allowing us the opportunity to assist you in your time of need, we are honored that you have placed your faith and your loved one's care in Our Lady's hands

Many Blessings,  
Our Lady Staff

### Field of Flowers Day

#### Save the Date - Sunday, April 8

All are invited to join Our Lady for Field of Flowers Day on Sunday, April 8, from 1:00 to 4:00 pm. Field of Flowers is Our Lady's annual rejoicing of God's wonderful creation of wildflowers; celebrating the flowers as a sign of Life and the Resurrection to come.

Mark your calendars and be sure to invite family members and friends to stroll with you through the nature trails, St. Francis Walk and beautiful wildflowers. A professional photographer will be available for complimentary photos.

Light refreshments will be served during the event.

## Williamson County Master Gardeners Work Day

### **Rose Trim and Garden Clean-up**

The Williamson County Master Gardeners have set their next work day for Thursday, February 15th, from 8:30 a.m. to 11:30 a.m.

The Master Gardeners will trim and fertilize as many rose plants as fits into the schedule. The volunteers will also be trimming plants and placing mulch in the Butterfly Garden.

This work day is a good time for interested parties to learn more about the Master Gardeners organization. Visit with the experts and get advice on the ideal native plants for OLOTR.

## Hilltop Receiving Improvements and New Road

Cold weather has not totally deterred improvements to the hilltop at Our Lady. Management made the decision to expand the main road for future development on the hillside as well as the top of the hill.

Jim Lackey put in many hard hours of work as he fervently excavated the winding road and installed water lines to the newly developed areas.

The following images give a pictorial history of the project:
